

Northern Territory Library Donations Policy

A donation is acceptable if it falls within the guidelines of the Library's Collection Development and Access Policy. Copies, such as photocopies and duplicates, will not be accepted unless these form part of a larger donation, and are considered as being essential to maintaining the integrity of the donation.

Once a donation is formally accepted by the Library, the donation becomes the property of the Library. The Library will not accept any items for inclusion in any of its collections as "loans".

All items accepted as donations by the Library are subject to conditions of use as determined by statutory requirements such as Copyright legislation, and as determined by the Collection Development and Access Policy.

Donors are required to sign a 'Deed of Gift' Form that outlines the terms of agreement for donations.
